

Evans Capability Snapshot

Small Business Adoption Specialist for Navy Innovation Programs

Evans helps Navy-focused primes deliver technology that gets used by the warfighter, from day one.

Evans brings 20+ years of federal implementation experience with zero contract disputes, a clean performance record, and deep expertise in post-award execution, workforce enablement, and mission-aligned sustainment.

What Evans Brings to Your Team

Small business credit that strengthens your bid

- Certified SB under NAICS 541330, 541511, 541512
- Active Navy programs provide strong past performance for your technical volume

Adoption expertise that reduces program risk

- We mitigate organizational resistance, user experience problems, and integration friction
- Result: Faster IOC, reduced post-deployment support costs

Zero performance risk

- 20+ years federal delivery: Zero defaults, Zero disputes
- ISO 9001:2015 QMS, CMMC Level 2 certified
- 80-person team with agile execution speed

Strategic program access

- Active relationships with PMS 351 (SSN(X)), PMS 415 (CRAW), PEO IWS 5, OPNAV NRCO
- Cleared workforce: 1 TS/SCI, 2 TS, 2 Secret (strategically deployed)

Disruptive Tech Integration

PERFORMANCE:

3.5+ years sustained delivery

Funding extended through FY26-28

Mission Value

- Strategic Submarine Programs: SSN(X) requirements development (PMS 351), CRAW usability (PMS 415), Virginia-class combat systems (PMS 450)
- Combat System Integration: ICS enterprise strategy (PEO IWS) and Fleet feedback integration (PEO IWS 5)
- Innovation Acceleration: Disruptive technology integration frameworks (OPNAV NRCO)

Representative Work

SSN(X) Requirements Development

- Program Office: PMS 351
- Challenge: Trade space reduction for next-gen submarine launcher/control spaces
- Evans Role: Human-centered design integrating submariner, shipbuilder, and warfare center feedback
- Outcome: First successful trade space reduction, designs informing CDD (FY28), funding through FY26-28

Integrated Combat System Strategy

- Program Office: PEO IWS
- Challenge: Enterprise alignment of ICS capability development and strategic planning
- Evans Role: Supporting coordination and Fleet feedback integration across PEO IWS portfolio
- Outcome: Enhanced cross-program alignment for integrated warfighting capability delivery

CRAW Usability Enhancement

- Program Office: PMS 415
- Challenge: Improve Compact Rapid Attack Weapon Adapter effectiveness for submarine strike warfare
- Evans Role: Design thinking for sailor-centered interface under operational tempo
- Outcome: Accelerating warfighter adoption of advanced strike capabilities on Virginia-class

Disruptive Technology Integration

- Program Office: OPNAV N94 DCO (now NRCO)
- Challenge: Accelerate operational relevance through rapid experimentation and prototyping
- Evans Role: Developed guidance, tools, and structures for technology integration
- Outcome: Enabled faster disruptive capability fielding, reduced experimentation-to-Fleet timelines

Why TANG Programs Trust Evans

When Navy innovation offices need to accelerate adoption of complex technologies, they choose Evans to bridge engineering excellence and warfighter reality.

Teaming Value

Your Need	Evans Delivers
SB Subcontracting Credit	Certified SB under key NAICS codes
Proposal Strength	Active Navy programs with strong perf.
Risk Mitigation	Zero defaults, proven federal QMS
Technical Differentiation	Adoption expertise primes lack in-house
